## SUMMARY

Full-Stack & Desktop Software Developer with experience across the full development lifecycle, from REST APIs and SPAs to desktop and ERP applications. Proficient in C#, .NET, ASP.NET Core, React, Vue 3, Node.js, Laravel, and JavaScript, with strong database skills in SQL Server, MySQL, and MongoDB. Experienced in Clean Architecture, JWT authentication, Docker, and third-party integrations like Google Maps, Stripe, and Clerk.

Background in international and remote projects across the U.S., Colombia, and El Salvador, with a focus on results, clean code, and UX/UI best practices. Capable of delivering complete full-stack and enterprise solutions, adapting to different tech stacks and business needs.

## WORK EXPERIENCE

### ● Trainee Program

**RSM-El Salvador** - El Salvador | Feb 2026 - May 2026

- Developed a full-stack Order Management System using ASP.NET Core 8 REST API and Vue 3 + Vite, connected to SQL Server via Entity Framework Core, following Clean Architecture with Repository Pattern.
- Implemented JWT authentication with role-based access control, protecting all API endpoints and frontend routes using Vue Router navigation guards and Axios interceptors for automatic token attachment and 401 handling.
- Built core features including full order management with PDF invoice export (QuestPDF) and Excel export (ClosedXML), Google Maps geocoding integration with interactive map pins, an analytics dashboard with Chart.js, and containerized the full stack with Docker and Docker Compose.

### ● Software Developer

**Interguia Solution's** - El Salvador | Oct 2025 - Present

- Developed desktop applications using C#, .NET, and Windows Forms within Visual Studio environments
- Assisted in the creation and optimization of SQL queries and stored procedures for SAP integrations
- Currently contributing to the development of an ERP system using C#, .NET, and Windows Forms in Visual Studio
- Built a CRM dashboard web application integrated with SQL Server using React and Laravel
- Developed static web applications using React and Js.

### ● Full-Stack Developer(Freelance)

**Expeditions George of the Jungle** - Hybrid - Leticia, Amazonas, Colombia | Jan 2022 - April 2026

- Brand identity redesign and creation of merchandising, maps, and multimedia materials for tourism activities in the Amazon using Adobe tools.
- Development of a complete website with WIX and Adobe software, achieving an 80% increase in online sales.
- Monitoring with Google Analytics to optimize website performance and support agency decision-making
- Development of a REST API with Node.js, automating the reservation system and data management through MongoDB, deployed as a serverless solution on Vercel.
- Implementation of user management with Clerk, including administrator and user roles to strengthen information security.
- Integration of a payment method with Stripe in the backend (Node.js), resulting in a 100% increase in immediate sales.
- Redesign UX/UI and developed with React and Sass, improving user experience through new components and reducing dependency on website builders like WIX.

### ● Full-Stack Jr

**Kodigo** | Remote - El Salvador | Oct 2024 - May 2025

- Development of a SPA with React and React Hook Form for efficient data management, achieving an 80% increase in user visits through a more user-friendly and optimized interface.
- Creation of a medical appointment management interface integrated with Firestore, deployed on Netlify.
- Development of a REST API under MVC architecture for the integration of a reservation system using Laravel and MySQL, deployed on Railway.
- Implementation of reusable React components with consumption of a client-provided API, facilitating long-term site maintenance and scalability.

## EDUCATION

### Master's Degree in Software Engineering and Information Systems

Tech University  
Sep 2025 - Present

### Bootcamp Full-Stack Jr

Kodigo Academy  
Oct 2024 - May 2025

### International English Certifications

Duolingo, TOEFL, IELTS  
Feb 2021 - May 2023

### Bachelor's Degree in Graphic Design

Don Bosco University  
Jan 2018 - Nov 2020

### Technical Degree in Graphic Design

Don Bosco University  
Jan 2017 - Nov 2018

## SKILLS

### Web Technologies
